Step 1 — Photograv

- Open the program "Photograv."
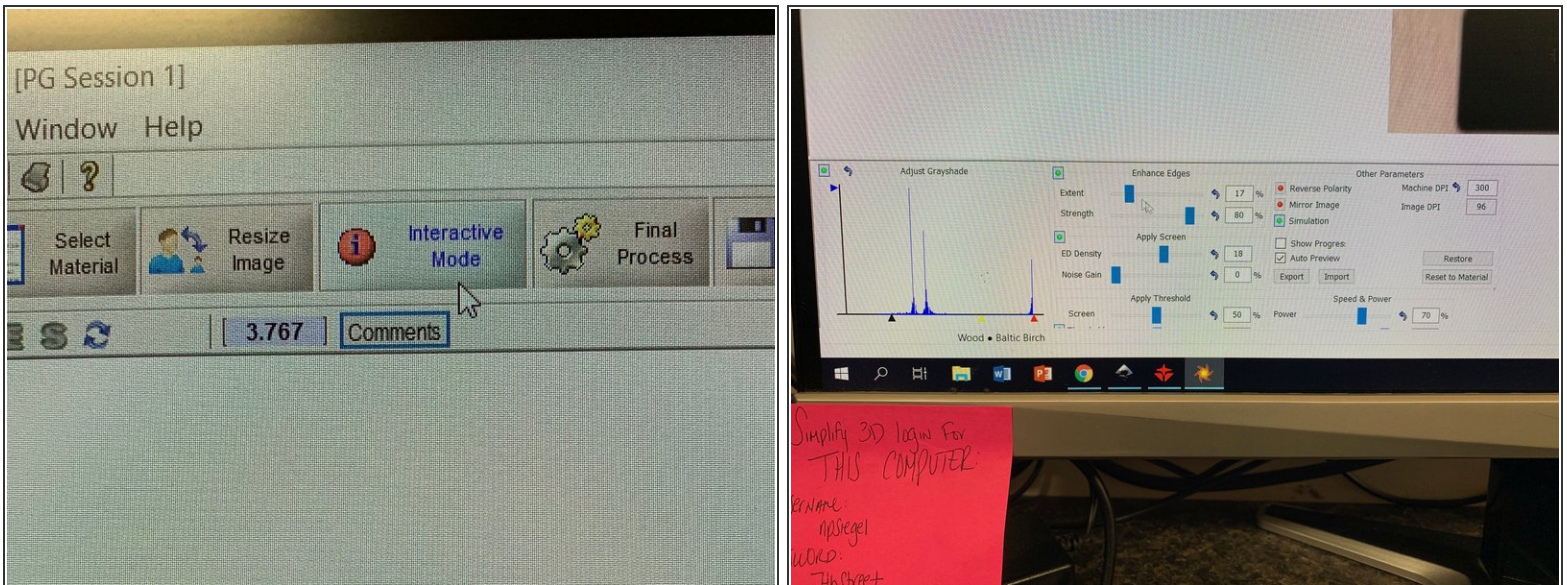

Step 2 — Open Image

- Open image by clicking "Open Image" in the top left corner.

Step 3 — Select Material

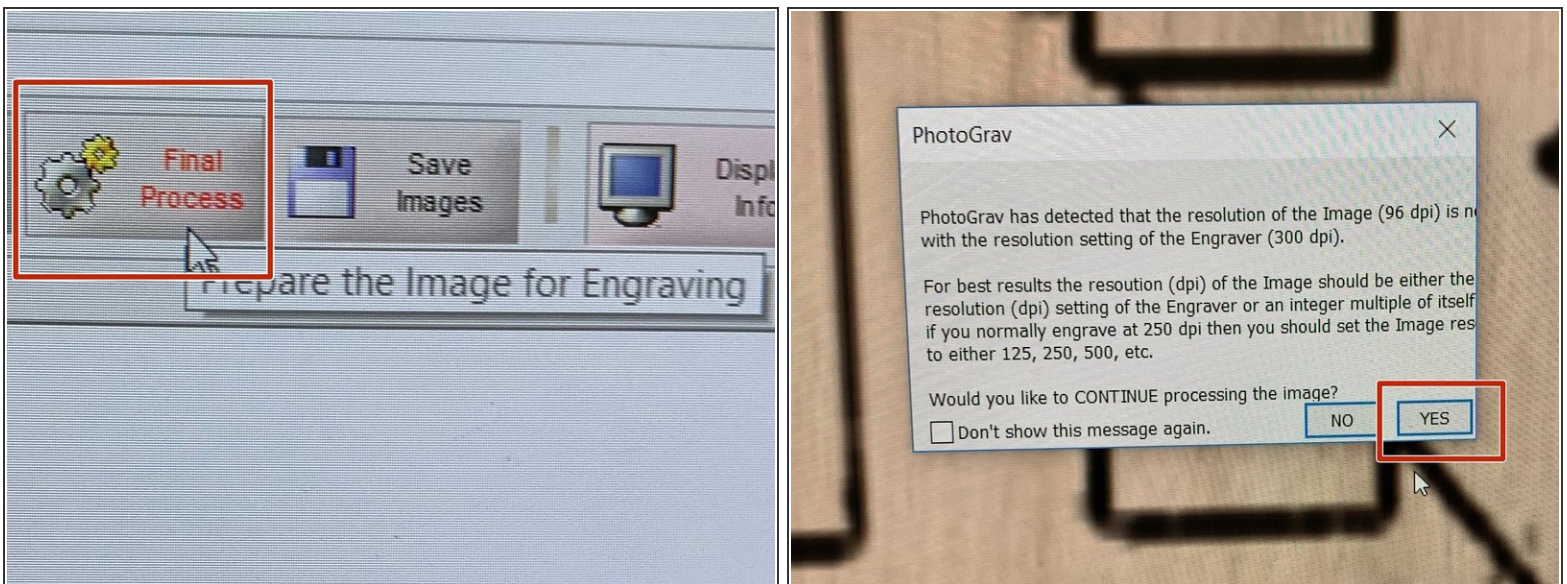

- "Select Material" in the top left corner
  - For this example, we will be using Baltic Birch.
- Once the material is selected, press "Okay."

Step 4 — Interactive Mode

- Select "Interactive Mode" in the top toolbar. At the bottom of the screen, begin adjusting different tool settings.

  ⓘ Typically you will be changing the Speed and Power based on the material you're using.

Step 5 — Final Process

- Once you're satisfied with the way your image looks, go to "Final Process" in the top toolbar. Press "yes" when a screen pops up.
